

# SAFETY DATA SHEET

# **SECTION 1) IDENTIFICATION**

Product Name: COOLCUT® SYN 400 BF

Synonym: C-05E

**Product Code:** 58-A 407, 58-A 408

Revision Date: Jun 21, 2022 Date Printed: Jun 21, 2022

Version: 1.0 Supersedes Date: N.A.

Manufacturer's Name: Canada - Walter Surface Technologies Inc.

Address: 5977 Trans Canada Highway West Pointe-Claire, QC, CA, H9R 1C1

Emergency Phone: INFOTRAC® 1-800-535-5053. International call collect: 1-352-323-3500 24 hours/day, 7 days/week.

Information Phone Number: +1 (888) 592-5837

Fax:

Product/Recommended Uses: Metal working fluid, cutting lubricant and coolant.

# **SECTION 2) HAZARDS IDENTIFICATION**

# Type of product

Liquid

#### Classification

Acute aquatic toxicity - Category 3

Chronic aquatic toxicity - Category 3

Eye Irritation - Category 2A

Skin Irritation - Category 2

Skin Sensitizer - Category 1A

#### **Pictograms**

## **Signal Word**

Warning

## **Hazardous Statements - Health**

H319 - Causes serious eye irritation

H315 - Causes skin irritation

H317 - May cause an allergic skin reaction

# **Hazardous Statements - Environmental**

H412 - Harmful to aquatic life with long lasting effects

H401 - Toxic to aquatic life

# **Precautionary Statements - General**

P101 - If medical advice is needed, have product container or label at hand.

58-A 407, 58-A 408 Page 1 of 10

P102 - Keep out of reach of children.

P103 - Read label before use.

#### **Precautionary Statements - Prevention**

P273 - Avoid release to the environment.

P264 - Wash thoroughly after handling.

P280 - Wear protective gloves, protective clothing, eye protection/face protection.

P261 - Avoid breathing dust/fume/gas/mist/vapors/spray.

P272 - Contaminated work clothing should not be allowed out of the workplace.

# **Precautionary Statements - Response**

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 - If eye irritation persists: Get medical advice/attention.

P302 + P352 - IF ON SKIN: Wash with plenty of water.

P321 - Specific treatment (see First-Aid on this label).

P362 + P364 - Take off contaminated clothing. And wash it before reuse.

P333 + P313 - If skin irritation or a rash occurs: Get medical advice/attention.

# **Precautionary Statements - Storage**

No precautionary statement available.

# **Precautionary Statements - Disposal**

P501 - Dispose of contents/container in accordance with local/national/international regulations.

# **Hazards Not Otherwise Classified (HNOC) (Physical & Health)**

no data available

# **SECTION 3) COMPOSITION/INFORMATION ON INGREDIENTS**

## Substance/Mixture

The product is a mixture.

CAS	<b>Chemical Name</b>	GHS Classifications	% By Weight
0000102-71-6	TRIETHANOLAMINE	Acute Tox. Oral 5, H303; Eye Irr. 2A, H319; Skin Irr. 3, H316	10.00% - 25.00%
0009003-11-6	OXIRANE, METHYL-, POLYMER WITH OXIRANE	Acute Tox. Oral 5, H303; Eye Irr. 2A, H319; Skin Irr. 3, H316	10.00% - 25.00%
0000095-14-7	1H-BENZOTRIAZOLE	Acute Tox. Derm. 4, H312; Acute Tox. Inh. 4, H332; Acute Tox. Oral 4, H302; Aquatic Acute 3, H402; Aquatic Chronic 3, H412; Eye Irr. 2, H319	
0000078-96-6	1-AMINO-2-PROPANOL	Acute Tox. Derm. 4, H312; Acute Tox. Oral 4, H302; Eye Dam. 1, H318; Skin Corr. 1B, H314	1.00% - 3.00%
0055406-53-6	3-IODO-2-PROPYNYL BUTYLCARBAMATE	Acute Tox. Inh. 3, H331; Acute Tox. Oral 4, H302; Aquatic Acute 1, H400; Aquatic Chronic 1, H410; Eye Dam. 1, H318; Skin Sens. 1, H317; STOT RE 1, H372	0.10% - 0.27%
0002682-20-4	2-METHYL-4-ISOTHIAZOLIN-3-ONE	Acute Tox. Derm. 2, H310; Acute Tox. Inh. 2, H330; Acute Tox. Oral 3, H301; Aquatic Acute 1, H400; Aquatic Chronic 1, H410; Eye Dam. 1, H318; Skin Corr. 1B, H314; Skin Sens. 1A, H317; STOT SE 3 (Resp.), H335	
0002634-33-5	1,2-BENZISOTHIAZOL-3(2H)-ONE	Acute Tox. Oral 4, H302; Aquatic Acute 1, H400; Aquatic Chronic 1, H410; Eye Dam. 1, H318; Skin Irr. 2, H315; Skin Sens. 1, H317	0.00% - 0.05%

Specific chemical identity and/or exact percentage (concentration) of the composition has been withheld to protect confidentiality.

58-A 407, 58-A 408 Page 2 of 10

## **SECTION 4) FIRST-AID MEASURES**

#### **Inhalation**

Remove source of exposure or move person to fresh air and keep comfortable for breathing.

Call a POISON CENTER/doctor if you feel unwell.

If breathing has stopped, trained personnel should begin rescue breathing or, if the heart has stopped, immediately start cardiopulmonary resuscitation (CPR) or automated external defibrillation (AED).

#### **Eye Contact**

If eye irritation persists:

Get medical advice/attention.

Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open.

Remove contact lenses, if present and easy to do.

Continue rinsing for a duration of 15-20 minutes.

Take care not to rinse contaminated water into the unaffected eye or onto the face.

Avoid direct contact. Wear chemical protective gloves, if necessary.

#### **Skin Contact**

Take off contaminated clothing, shoes and leather goods (e.g. watchbands, belts).

Wash with plenty of lukewarm, gently flowing water for a duration of 15-20 minutes.

If skin irritation or a rash occurs:

Get medical advice/attention.

Wash contaminated clothing before re-use or discard.

#### Ingestion

Get Medical advice/attention if you feel unwell.

Do NOT induce vomiting.

If vomiting occurs naturally, lie on your side, in the recovery position.

If material has been swallowed and the exposed person is conscious, give small quantities of water to drink.

Never give anything by mouth to an unconscious person.

Rinse mouth. If you feel unwell/If concerned: Call a POISON CENTER/doctor.

## Indication of any immediate medical attention and special treatment needed

Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Treat according to symptoms (decontamination, vital functions), no known specific antidote. Treatment should be supportive and based on the judgement of the physician in response to the reaction of the patient.

# Most important symptoms/effects, acute and delayed

# **Eye contact**

Causes serious eye irritation.

# Inhalation

No known significant effects or critical hazards.

#### Skin contact

Causes skin irritation. May cause an allergic skin reaction.

# Ingestion

No known significant effects or critical hazards.

# Over-exposure signs/symptoms

## Eye contact (OE)

Adverse symptoms may include the following: pain or irritation watering redness

#### Inhalation (OE)

58-A 407, 58-A 408 Page 3 of 10

No known significant effects or critical hazards.

#### Skin contact (OE)

Adverse symptoms may include the following: pain or irritation redness

#### Ingestion (OE)

No known significant effects or critical hazards.

## **SECTION 5) FIRE-FIGHTING MEASURES**

#### **Suitable Extinguishing Media**

Small Fire: Dry chemical, foam, carbon dioxide, water-spray or alcohol-resistant foam. Carbon dioxide can displace oxygen. Use caution when applying carbon dioxide in confined spaces. Large Fire: Water spray, fog or alcohol-resistant foam.

# **Unsuitable Extinguishing Media**

None.

# **Specific Hazards in Case of Fire**

In case of fire, hazardous decomposition products may include carbon oxides. Fire will produce irritating gases. Runoff may pollute waterways

# **Fire-fighting Procedures**

Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Cool containers with flooding quantities of water until well after fire is out. Caution should be exercised when using water or foam as frothing may occur, especially if sprayed into containers of hot, burning liquid. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

## **Special Protective Actions**

Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear.

## **SECTION 6) ACCIDENTAL RELEASE MEASURES**

## **Emergency Procedure**

Isolate hazard area and keep unauthorized personnel away. Stay uphill and/or upstream. Ventilate closed spaces before entering. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.

#### **Recommended Equipment**

Wear chemical protective clothing and positive pressure self-contained breathing apparatus (SCBA).

## **Personal Precautions**

Avoid breathing vapor or mist. Do not get on skin, eyes or clothing.

### **Environmental Precautions**

Notify authorities if any exposure to the general public or the environment occurs or is likely to occur. Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

# Methods and Materials for Containment and Cleaning up

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Contaminated absorbent material may pose the same hazard as the spilled product. If spilled material is cleaned up using a regulated solvent, the resulting waste mixture may be regulated. Absorb Liquids in vermiculite, dry sand, earth, or similar inert material and deposit in sealed containers for disposal. Ventilate area after clean-up is complete.

# **SECTION 7) HANDLING AND STORAGE**

# **General**

Wash hands after use. Avoid breathing vapor or mist. Use good personal hygiene practices. Eating, drinking and smoking in work areas is prohibited. Remove contaminated clothing and protective equipment before entering eating areas. All containers must be properly

58-A 407, 58-A 408 Page 4 of 10

labelled. Eyewash stations and showers should be available in areas where this material is used and stored Do not get in eyes, on skin, or on clothing.

#### **Ventilation Requirements**

Use only with adequate ventilation to control air contaminants to their exposure limits. The use of local ventilation is recommended to control emissions near the source. Report ventilation failures immediately.

#### Storage Room Requirements

Use non-sparking ventilation systems, approved explosion-proof equipment and intrinsically safe electrical systems in areas where this product is used and stored. Store in a cool, dry, well ventilated area, away from sources of ignition and incompatibilities. Keep containers securely sealed when not in use. Containers that have been opened must be carefully resealed to prevent leakage. Indoor storage should meet OSHA standards and appropriate fire codes. Empty containers retain residue and may be dangerous.

# **SECTION 8) EXPOSURE CONTROLS/PERSONAL PROTECTION**

### Eye protection

Wear safety glasses complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. Wear eye protection with side shields or goggles. Wear indirect-vent, impact and splash resistant goggles when working with liquids.

#### **Skin Protection**

Use of gloves approved to relevant standards made from the following materials may provide suitable chemical protection: PVC, neoprene or nitrile rubber gloves. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, glove thickness, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Use of an apron and over-boots of chemically impervious materials such as neoprene or nitrile rubber. Launder soiled clothes or properly disposed of contaminated material, which cannot be decontaminated.

## **Respiratory protection**

If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker, a respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 should be followed. Check with respiratory protective equipment suppliers.

#### **Appropriate Engineering Controls**

If vapor or mist is generated when material is heated or handled, provide adequate ventilation to keep the airborne concentrations of vapors below their respective threshold limit value. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

# **SECTION 10) STABILITY AND REACTIVITY**

## **Stability**

Stable under normal storage and handling conditions.

## **Conditions To Avoid**

Avoid heat, sparks, flame, high temperature and contact with incompatible materials.

# **Hazardous Reactions/Polymerization**

Will not occur.

# **Incompatible Materials**

Strong bases, acids, and oxidizing agents.

# **Hazardous Decomposition Products**

Oxides of carbon.

# **10.6 Hazardous Decomposition Products**

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# **SECTION 11) TOXICOLOGICAL INFORMATION**

#### **Acute Toxicity**

Based on available data, the classification criteria are not met.

The Acute Toxicity Estimate (ATE) for an oral exposure to this mixture is >5000 mg/kg body weight

The Acute Toxicity Estimate (ATE) for a dermal exposure to this mixture is >5000 mg/kg body weight

The Acute Toxicity Estimate (ATE) for an inhalation (vapour) exposure to this mixture is >20 mg/l

## **Aspiration Hazard**

Based on available data, the classification criteria are not met.

# Carcinogenicity

58-A 407, 58-A 408 Page 6 of 10

Based on available data, the classification criteria are not met.

0000102-71-6 TRIETHANOLAMINE

Not carcinogenic

#### **Germ Cell Mutagenicity**

Based on available data, the classification criteria are not met.

0000102-71-6 TRIETHANOLAMINE

Not genotoxic

#### **Reproductive Toxicity**

Based on available data, the classification criteria are not met.

0000102-71-6 TRIETHANOLAMINE

Not toxic to development or the reproductive system.

## Respiratory/Skin Sensitization

May cause an allergic skin reaction

#### Serious Eye Damage/Irritation

Causes serious eye irritation

#### **Skin Corrosion/Irritation**

Causes skin irritation

0000102-71-6 TRIETHANOLAMINE

Mild skin irritation following repeated exposures using the dermal route.

## **Specific Target Organ Toxicity - Repeated Exposure**

Based on available data, the classification criteria are not met.

## **Specific Target Organ Toxicity - Single Exposure**

Based on available data, the classification criteria are not met.

0000102-71-6 TRIETHANOLAMINE

Triethanolamine is of low toxicity following single exposures.

## **Likely Routes of Exposure**

Inhalation, Ingestion, Skin contact, Eye contact

#### 0000102-71-6 TRIETHANOLAMINE

LD50 (oral, rat): 5000-9110 mg/kg (2,8,17,18)

LD50 (oral, mouse): 7400 mg/kg (18)

LD50 (oral, rabbit): 2200 mg/kg (18) (reported but cannot be confirmed)

LD50 (oral, guinea pig): 8000 mg/kg (8,17); 2200 mg/kg (18) (reported but cannot be confirmed)

0002634-33-5 1,2-BENZISOTHIAZOL-3(2H)-ONE

LD50 (oral, rodent - rat): 1020 mg/kg, Toxic effects: Details of toxic effects not reported other than lethal dose value

## **SECTION 12) ECOLOGICAL INFORMATION**

## **Toxicity**

Harmful to aquatic life

Harmful to aquatic life with long lasting effects

0000102-71-6 TRIETHANOLAMINE

Triethanolamine is a basic compound, thus if it is released to water in large quantities, effects on the pH of the receiving water might be expected.

0002682-20-4 2-METHYL-4-ISOTHIAZOLIN-3-ONE

LC50(Fish - Bluegill, 96 hrs): 0.3 mg/L

## **Persistence and Degradability**

58-A 407, 58-A 408 Page 7 of 10

No data available.

**Bioaccumulative Potential** 

No data available.

**Mobility in Soil** 

No data available.

**Other Adverse Effects** 

No data available.

# **SECTION 13) DISPOSAL CONSIDERATIONS**

# **Waste Disposal**

It is the responsibility of the user of the product to determine at the time of disposal whether the product meets local criteria for hazardous waste. Waste management should be in full compliance with national, state and local laws. Empty Containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes.

# **SECTION 15) REGULATORY INFORMATION**

# **U.S. Federal regulations**

United States inventory (TSCA 8b): All components are listed or exempted.

TSCA 4(a) proposed test rules: Benzotriazole

Commerce control list precursor: 2,2',2"-Nitrilotriethanol

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)

None of the components are listed.

Clean Air Act Section 602 Class I Substances

None of the components are listed.

Clean Air Act Section 602 Class II Substances

None of the components are listed.

**DEA List I Chemicals (Precursor Chemicals)** 

None of the components are listed.

**DEA List II Chemicals (Essential Chemicals)** 

58-A 407, 58-A 408 Page 8 of 10

None of the components are listed.

#### **SARA 302/304**

None of the components are listed.

#### **SARA 313**

None of the components are listed.

#### **SARA 311/312**

SKIN CORROSION/IRRITATION - Category 2 SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1

#### **States regulations**

New York: None of the components are listed.

Massachusetts: The following components are listed: 2,2',2"-Nitrilotriethanol; 1-Aminopropan-2-ol; Benzotriazole

New Jersey: The following components are listed: 2,2',2"-Nitrilotriethanol; 1-Aminopropan-2-ol Pennsylvania: The following components are listed: 2,2',2"-Nitrilotriethanol; 1-Aminopropan-2-ol

#### Canada

Canadian NPRI: None of the components are listed.

CEPA toxic substance : None of the components are listed.

Canada inventory (DSL NDSL): All components are listed or exempted.

## **International lists**

Australia: All components are listed or exempted.

Europe: All components are listed or exempted.

Turkey: All components are listed or exempted.

Republic of Korea: All components are listed or exempted.

China: All components are listed or exempted.

New Zealand: All components are listed or exempted.

Philippines: All components are listed or exempted.

Taiwan: All components are listed or exempted.

# **California Proposition 65**

Prop 65: No products found

CAS	Chemical Name	% By Weight	Regulation List
0000102-71-6	TRIETHANOLAMINE	10.00% - 25.00%	DSL,TSCA
0009003-11-6	OXIRANE, METHYL-, POLYMER WITH OXIRANE	10.00% - 25.00%	DSL,TSCA
