ARCAIR GOUGING ELECTRODES

[OVERVIEW](#)

[DOCUMENTS AND SPECS](#)

[ORDERING INFORMATION](#)

A high grade, all purpose copperclad pointed gouging electrode. It's controlled copper coating improves electrical conductivity (for more efficient, cooler operation) and helps maintain electrode diameter at the point of the arc.

Features

Designed specifically for the air carbon-arc process

- Contain a precise formulated blend of carbon and graphite

- Produces the most efficient metal removal performance in today's market

- Superior metal removal rates, cool operation, and uniform diameters

Ideal for a broad range of applications

- Creating u-grooves for weld joint

- Removing old welds

- Gouging out cracks

- Cleaning and repairing castings

- Removing hard surface material

- Rough machining
